9:30 AM

Morning session

Session | Location: HIT E23 , ETH Hnggerberg Campus

9:30 – 9:55 AM

Precision spectroscopy and coherent control of single molecular nitrogen ions

Speaker

Nicols Nuez Barreto

9:55 – 10:20 AM

Progress in Doppler-free single-photon VUV spectroscopy

Speaker

Matthew Rayment

10:20 – 10:45 AM

Development of an optical frequency standard based on trapped Ca+ ions

Speaker

Alexandr Shlykov

10:45 – 11:00 AM

coffe break

11:00 AM – 12:00 PM

Discussion topics - Molecular, Atomic, Ion, Nuclear and calculable Clocks

12:00 PM
